2025 HARLEY-DAVIDSON® LIMITED EDITION LIGHTER OF THE YEAR

Kick-start the season with the 2025 Harley-Davidson Limited Edition Lighter of the Year. Surrounded by rich pinstripes, a minimalist bar and shield logo commands the surface of the Armor® High Polish Chrome lighter over a deep black epoxy inlay. The luxurious Deep Carve engraving also appears on the reverse of the piece, while the non-hinge side is laser-engraved with the inscription, "2025 LIMITED EDITION." This piece is only available to order in 2025, so don't miss the opportunity to offer customers this year's incredible keepsake.

IMPRINT METHODS

Lustre

Restricted to plated finishes, the Lustre process recreates a design with intricate etching, which is then plated to add both depth and durability. Can be combined with 540 Fusion.

#48993

Laser Two-Tone

Zippo's lasers can be programmed utilizing two different depths, creating a unique contrast with silver and gold tones.

#46311

Photo Image

Photographs are digitally replicated into high-resolution images, which are then laser-engraved with pin-sharp accuracy.

#48360

540 Fusion

540 Fusion seamlessly envelops the lighter on all sides with shimmering, metallic color palettes, combining the hallmarks of both our 540 Color and Fusion processes. Can be combined with Lustre for added dimension.

#48994

Emblem Attached

Image is die-struck onto various metal substrates such as brass, aluminum and pewter.

#20230

Laser Fancy Fill

Skilled designers enhance our Laser Engrave process by adding various directional fill patterns to achieve a three-dimensional effect.

#48601

540 Color

Our proprietary design application seamlessly surrounds the entire lighter (excluding the hinge and bottom stamp) with vibrant, full-color graphics.

#48602

Deep Carve

A powerful milling machine accurately engraves deep, contoured cuts into an Armor® case using a selection of tool sizes. Special buffing and plating is then applied for a high-end look.

#46710

Deep Carve/Epoxy Inlay

Epoxy Inlay

Clear, marbled or solid epoxies are inlaid into deep cavities or over special engraving by highly skilled artisans.

#46710

Deep Carve/Epoxy Inlay

Black Light

Specially formulated ink takes on a bluish glow when exposed to UV black light.

#46676

Black Light

Color Image

Zippo's signature printing method is capable of anything from one-color logos to full-color photographic representations.

#46216

Laser Engrave

Computer-programmed laser engravers expertly reproduce artwork onto a variety of base models. The crisp and precise design is revealed in metallic tones beneath the lighter's finish to provide luxurious contrast.

#46217

Laser 360°

Precision lasers engrave 360° seamlessly around the lighter case.

#46310

Photo Image 360°

Our Photo Image technology is extended around all sides of the lighter case to create a seamless, continuous image.

#48799

Any Zippo windproof lighter, when returned to our Repair Clinic, will be put in first-class mechanical condition free of charge, for we have yet to charge a cent for the repair of a Zippo pocket lighter, regardless of age or condition. The finish, however, is not guaranteed.

This guarantee is additional to your statutory rights under national law. Other Zippo products carry their own specific warranties.

Because we are constantly improving our products, some items may not look exactly as depicted. The availability of items in these catalogs is subject to change with or without notice at Zippo's sole discretion.
